Leading the Way with a full line of innovative business solutions
Managed Print Experts
At Toshiba, we’ve moved far beyond the box. Our people bring innovative, real-world solutions to all your print management needs. We’ll help you cut costs, secure your documents, and reduce your environmental footprint. And if there’s one thing every business and our planet can use right now, it’s managing to do more with less.

Award-Winning
Toshiba products and underlying technology consistently win major awards from prestigious industry and consumer organizations. Marketing Research Consultants, BTA, BERTL, BLI, and CIO recognize us for our product performance and superior service.

Committed to Quality
We deliver a level of service and a guarantee that are unmatched in the industry. There are no disclaimers. Just a simple and sincere commitment to deliver the quality you expect, all backed by our Toshiba Quality Commitment Guarantee.

Eco Style
At Toshiba, we believe that leading innovation leads to a better world. We continually seek ways to aid in the reduction of harmful environmental substances, the prevention of pollution, and the development of environmentally conscious products. Not only do we promote earth-friendly practices as our way of doing business, we also choose our suppliers based on their commitment to manufacturing materials that help achieve ecological harmony.

SecureMFP
Toshiba has long recognized security as a top priority for businesses. That’s why we offer some of the most advanced security features and programs available, with multiple levels to ensure that all your data remains right where it belongs. For more on our secureMFP program, visit www.secureMFP.com.
Copy, print, scan, or fax, one device can do it all.
Toshiba Multifunction Products — Maximum Productivity in Every Workplace

We offer a full line of multifunction products with an array of optional features and finishing options. Copy, print, scan, and fax, our e-STUDIO MFPs are fast and productive, providing businesses like yours the capability and versatility to produce what you need, when you need it.
The e-STUDIO2040c/2540c/3040c bring mid-volume workgroups impressive color and high-volume black and white, including copy, print, scan and fax capabilities. Now, thanks to the integration of the new generation e-BRIDGE platform, features can be added later—similar to the way apps are added to smart phones. This platform also provides increased security, connectivity, manageability and energy saving. Yet another technological advancement from Toshiba.

features at a glance:

- 20/25/30 PPM Color / B&W
- 600 x 600 DPI Resolution Color, 2,400 x 600 DPI Resolution B&W
- First Copy Out Time of 8.4 Seconds Color, 6.5 Seconds B&W
- Out-of-the-Box Network-Ready, Print-Ready, Scan-Ready, Internet-Ready
- Up to 3,700-Sheet Input Capacity
- Net-Ready, e-BRIDGE All-in-One Architecture
- e-FILING (Electronic Filing)
- Versatile Paper Handling and Finishing Options
- Robust Security Capabilities
The Toshiba e-STUDIO4540c color multifunction series leverages new state-of-the-art technologies to produce next-generation quality. Our patented technologies make a difference—a difference you can see, in both color and black and white. Fast, beautiful color. Crisp, readable text. The Toshiba e-STUDIO4540c series color multifunction systems provide easy-to-use, cost-effective color and black and white printing for busy offices.

features at a glance:
- 35/45 PPM Color / 45 PPM B&W
- 600 x 600 DPI Resolution Color, 2,400 x 600 DPI Resolution B&W
- First Copy Out Time of 8.4/6.8 Seconds Color 6.5/5.3 Seconds B&W
- Out-of-the-Box Network-Ready, Print-Ready, Scan-Ready, Internet-Ready
- Up to 3,700-Sheet Input Capacity
- Net-Ready, e-BRIDGE All-in-One Architecture
- e-FILING (Electronic Filing)
- Versatile Paper Handling and Finishing Options
- Robust Security Capabilities
With every new series of MFPs, we look to more than a century of advanced Toshiba technology to continually improve speed, performance and functionality. Now, with the integration of the new generation e-BRIDGE platform, the possibilities are limitless. In addition to speeds up to 65 brilliant color pages per minute, the new e-STUDIO6550 series provides increased security, connectivity, manageability, energy savings and, best of all, solutions readiness.
We’ve packed all our latest digital technology into these small yet powerful multifunction devices.

The e-STUDIO202s/203s/203sd MFPs are highly versatile, exceptionally affordable multifunction solutions for small businesses and workgroups. High-quality printing and copying along with full color scanning and a wide variety of functions can be had from these amazingly compact desktop devices.

features at a glance:

- 20 PPM
- 600 x 600 DPI Resolution
- First Copy Out Time of 8.0 Seconds
- 250-Sheet Standard Paper Cassette
- 50-Sheet Bypass Tray
- Scan Once Print Many
- Letter and Legal Paper Sizes
- eSort (e-STUDIO203s/e-STUDIO203sd)
- Auto Duplex (e-STUDIO203sd only)
- Full Color Scanning
When looking for the perfect balance between form and function, the e-STUDIO181/182/242 are the ideal multifunction devices (copier, printer, scanner, and optional fax only on the e-STUDIO182/242). You get incredible output from such a small footprint — making either device the right fit for small businesses and workgroups.

With a host of proprietary Toshiba technology, user-friendly control panel, and flexible paper-handling capabilities, all three devices provide unrivaled image and text quality in their class.

features at a glance:

- 18/18/24 PPM
- 2,400 x 600 DPI Image Resolution
- First Copy Out Time of 7.6 Seconds (e-STUDIO181/182) First Copy Out Time of 7.5 Seconds (e-STUDIO242)
- Standard 350-Sheet Paper Capacity
- Maximum 600-Sheet Paper Capacity (e-STUDIO181) Maximum 1,700-Sheet Paper Capacity (e-STUDIO182/242)
- Up to Ledger Paper Size Support
- GDI Duplex Printing
- Standard TWAIN Scanning
At a time when some businesses are making tough decisions, Toshiba offers a simple one—the e-STUDIO205SE/255SE/305SE Series. It streamlines operations and boosts productivity to an all-new level. Every document that’s printed is crisp and clear, thanks to Toshiba’s own ultrafine toner. When it comes to describing every other aspect of this innovative line of products, ultrafine may be precisely the right word.

features at a glance:

- 20/25/30 PPM
- 2,400 x 600 DPI Resolution
- Hard Drive Encryption Standard
- Data Overwrite Standard
- First Copy Out Time of Approximately 4.7 Seconds
- 43 SPM Color Scanning
- Standard Network Printing/Scanning
- Statement-R, Letter, Legal, and Ledger Paper Sizes
- Up to 3,200-Sheet Maximum Paper Capacity
- 33.6 Kbps Dual-Line Fax
Looking to streamline your organizational resources? Then the e-STUDIO355SE/455SE are the perfect find. Not only do they offer network printing, copying, faxing, and scanning capabilities, these 35 and 45 pages-per-minute multifunction systems are ideal for busy workgroups that produce up to 150,000 copies per month. Plus, the e-STUDIO355SE/455SE come with Toshiba’s proprietary e-BRIDGE architecture, an innovative hardware design that allows the devices to share system resources, and make you more productive.

features at a glance:

- 35/45 PPM
- 2,400 x 600 DPI Resolution
- Hard Drive Encryption Standard
- Data Overwrite Standard
- First Copy Out Time of Less than 3.7 Seconds
- Up to 3,200-Sheet Maximum Paper Capacity
- Statement-R, Letter, Legal, Ledger Paper Sizes
- 33.6 Kbps Dual-Line Fax
- 43 SPM Letter-Size Color Scanning
- Standard Network Printing/Scanning
The e-STUDIO555SE/655SE/755SE/855SE offer powerful, high-volume black and white production with all the features you’ll need. Not to mention advanced security features, a variety of finishing options, and the kind of reliability for which Toshiba has won numerous awards.

Take advantage of high-quality 2,400 x 600 DPI image resolution delivered at up to 85 pages-per-minute, with a 3,600-Sheet base paper supply or 7,600-Sheet maximum paper capacity. Equally impressive paper handling and finishing options to help you produce whatever documents or booklets you need.

features at a glance:

- 55/65/75/85 PPM
- 2,400 x 600 DPI Resolution
- Hard Drive Encryption Standard
- Data Overwrite Standard
- First Copy Out Time of Less than 3.5 Seconds
- Tab Copying and Printing
- 3,600-Sheet Standard Paper Capacity
- 7,600-Sheet Maximum Paper Capacity
- Supports 110 lb. Index Paper Weight
- Letter, Legal, and Ledger-Size Booklet Making
- 3rd-Generation e-BRIDGE Technology
- 80 SPM, Letter-Size at 300 DPI
- Advanced Paper Handling
e-STUDIO 905/1105/1355

Shop around and compare — you’ll find the e-STUDIO905/1105/1355 deliver the highest copying speeds available on the market today. They also offer some of the most flexible finishing options around, not to mention an impressive 8,050-Sheet maximum paper capacity from up to seven paper sources.

Whether you’re a busy Departmental Office user, a Print-on-Demand customer, or a Start-up Production environment, your company will work better, faster, and smarter when you’ve got the e-STUDIO905/1105/1355 working hard for you.

features at a glance:

- 90/110/135 PPM
- True 1,200 x 1,200 DPI Resolution
- First Copy Out Time as Fast as 3 Seconds (e-STUDIO1355)
- 8,050-Sheet Maximum Paper Capacity
- Optional Network Print/Scan Connectivity
- Large, User-Friendly, Color Touch-Panel Display for Simple Access to All Functions
- Document Server Stores Up to 3,000 Documents with up to 2,000 Pages per Document
Multifunction capabilities for any size workgroup.

Toshiba Facsimiles — Feature-Rich Systems Transmit Big Savings

Designed to help reduce operational costs and increase productivity, our multifunction facsimiles provide 4-in-1 solutions. From stand alone faxing, network printing, and scanning functions to walk-up Internet faxing and fax-to-e-mail capabilities, our hardworking devices are impressively user friendly.
The Toshiba multifunction facsimile systems are designed for small to medium-sized workgroups. Large and small jobs alike are executed quickly and efficiently, printing at 5 to 19 pages-per-minute and scanning from 0.7 to 3 seconds-per-page. Offering speed, versatility, and reliability, these facsimile systems truly have it all.

Convert images into digital form reliably and quickly.
Toshiba has formed a strategic agreement with Hewlett Packard, one of the global leaders in the multifunction printer market. As an Elite Partner, we can offer our customers special pricing on the entire HP LaserJet product line including mono and color single function and MFP products. Toshiba can be your one-stop source for sales, servicing, and fleet monitoring of these printers.

Toshiba has partnered with Fujitsu Computer Products of America, Inc. (FCPA), an established leader in the document imaging market. Fujitsu features state-of-the-art scanning solutions in the workgroup, departmental, and production-level scanner categories. These scanners deliver speed, image quality, and great paper handling, along with easy integration and compatibility with over 200 document imaging applications.
The KIP network print systems increase print production possibilities by delivering wide format output with exceptionally reliable performance. These devices efficiently produce documents sent via application drivers, network PCs, or the Internet. They meet the toughest printing demands of virtually any digital imaging environment and may be easily upgraded to incorporate black and white as well as color copying and scanning features. Partnering with KIP has rounded out Toshiba’s product line-up.

Toshiba has partnered with Lexmark to provide best in class printing, multifunction, and vertical market solutions. A leading developer, manufacturer, and supplier of printing and imaging solutions, Lexmark has become known for their high-quality mono and color printers and MFPs. Let Toshiba be your single-source for Lexmark printers and supplies.
Your business may be at risk. Toshiba can help.

Security is a growing concern for companies of all sizes. With Toshiba SecureMFP, we employ innovative methods of protecting valuable data in order to help businesses meet the increasing security challenges.

With SecureMFP, each device is assessed and labeled to indicate the level of security. The following four areas of security are identified:

- Device Security
- Access Security
- Document Security
- End of Life/Disposal Security

Toshiba can help you achieve a uniform level of security across your network in order to protect valuable data and intellectual property. Allow one of our Professional Services Consultants to show you how we can best provide the level of security your company requires while reducing revenue losses and ensuring that regulatory requirements are met.
Toshiba Software and Device Management —

Toshiba understands the copier is just the beginning. That’s why we leverage our leading-innovation technology with software and programs that help you increase efficiency and eliminate waste.
Toshiba’s productivity-boosting solutions are custom tailored for your business to provide more efficient management of device resources, which can cut costs by as much as 40%, virtually overnight.

- Increases efficiency and distribution of existing hardware devices.
- Simplifies service contracts.
- Consolidates document management systems.
- Tracks and manages office assets and personnel who use them.
- Provides comprehensive fleet optimization analysis.
- Utilizes Six Sigma™ methodology.

PageSmart

Encompass PageSmart is a new and better way to manage your fleet and lower printer operating costs. It features a pay-as-you-print solution including toner, service, and management.

- Provides high quality toner and parts for your installed base of laser printers.
- Reliable on-site service.
- Complete management of all printers regardless of manufacturer.
- Print tracking and regular reporting.
- Flexible terms and equipment options.

PrintSmart

With Toshiba’s Encompass PrintSmart program, you’ll get the printing supplies you need without the additional expense of servicing your printing devices.

- High-quality laser toner for your installed fleet of printers.
- Reliable, on-site service included at no additional cost to you.
- Complete management of all printers regardless of manufacturer.
- Creates usage reports.
- Convenient, flexible billing and terms.

Encompass has been awarded CIO Magazine’s Enterprise Value Award for its IT and enterprise agility.

- **Document Management**
  This category provides the capability to manage, share and secure paper, electronic and digital documents. These features enable you to control costs, increase efficiencies, and better communicate, while reducing risk and helping to meet higher standards of compliance and business continuity.

- **Device Management**
  Includes software-based solutions and services focused on reducing the cost and improving the return on investment for deploying networked office equipment. Such technologies provide automated device management-based services and simplify the process of managing and servicing network-based output devices.

- **Document Delivery**
  This category includes entry-level document management solutions, like workgroup document repositories with searching, indexing, retrieval, and other baseline document management and records management capabilities. Unlike traditional document management systems, this category includes solutions that would deploy at prices below $50,000 per installation, including software, hardware, and consulting/integration support.

- **Document Output Management**
  Includes solutions for tracking, measuring, and monitoring document output to workgroup office equipment, as well as security-based solutions that prevent unauthorized access to output devices and related information. Additional solutions in this category include technologies that intelligently process and format legacy and database-driven streams of information to distributed workgroup environments, providing support for advanced distributed printing applications.

- **Document Capture**
  This category includes scan-based document capture and routing applications as well as front-end workflow applications, particularly those enabled via a networked workgroup multifunctional peripheral or scanner. Example products include:

  **Exchange**
  The e-BRIDGE® Open Platform connector for Microsoft Exchange allows the MFP user to scan a document and e-mail the document through the Microsoft Exchange server. As a result, the MFP user experience is seamlessly integrated with Microsoft Outlook. Using the Open Platform Connector, the MFP user can do the following:
  - Access the Outlook Address Book
  - View sent e-mail from the Outlook Sent folder
  - Save a scan to their Outlook Drafts folder

  **SharePoint**
  The Microsoft SharePoint Open Platform connector allows the MFP user to scan a document deliver the document to a Microsoft SharePoint destination. As a result, the MFP user experience is seamlessly integrated with Microsoft SharePoint. With the e-BRIDGE® Open Platform connector for Microsoft SharePoint, the MFP user can do the following:
  - Access Microsoft SharePoint Lists
  - Enter data required by SharePoint Fields
Document Management

deskRecord

deskRecord is a complete desktop document management system that allows users to quickly and intuitively file, search, retrieve, and share documents. It has all the advanced features required to completely manage all of your electronic documents needs.

- Convert scanned documents into text documents with Optical Character Recognition (OCR).
- Thorough document searches, full text and keyword.
- Easy and familiar folder/document structure.
- Document audit log/trail, version control.
- Document check-in/check-out control.
- View image thumbnails of all your files and documents.

DocRecord

DocRecord is a powerful, low-cost, and easy-to-use electronic document management software solution that is both modular and scalable, allowing businesses to configure a solution that best fits their current business challenges and update it over time as requirements change.

- Retrieve documents at the touch of a button.
- Web-based access to documents for remote users.
- Organize documents with customized folders and views.
- Automatically categorize and index incoming documents.
- Search for documents quickly based on keywords.

DocuWare

The DocuWare document management system is state-of-the-art software for integrated document management. It can automatically process any type of document regardless of its source, with internal control procedures that help you meet audit and compliance requirements.

- Appropriate for all document types: letters, faxes, records, e-mail, and drawings.
- Uncomplicated installation and administration.
- Only one document pool for all documents.
- Integrates with any workflow.
- Information is available from any location, worldwide.

e-BRIDGE Document Library

e-BRIDGE Document Library is an integrated document archiving tool optimized for the collection and storage of general business documents.

- Quickly and easily retrieve any document associated with your business.
- Information is immediately available for printing, faxing, and e-mailing.
- Reduce administration expenses, paper and printing costs, and storage liabilities.
- Web-based, feature-rich intuitive solution.
Document Management

e-BRIDGE Re-Search is a cost-effective and easy-to-implement records management and eDiscovery software solution.

- Seamless integration with existing network security models.
- No new file server, application server, storage server, or network appliance required.
- Manage data wherever it is located without centralization schemes.
- Fully distributed system—manage your data anywhere, on any platform across the entire network.

Device Management

e-BRIDGE Fleet Management System allows you to instantly gather information from networked Toshiba multifunction systems throughout your company.

- Monitor machine availability, toner, and paper supply status.
- Define grouped devices by model, cost center, department, or location.
- Customize reports, covering groups of devices which can be defined as templates.

TopAccess

Link to TopAccess for advanced settings on Toshiba MFPs. TopAccess is a web-based job and device management tool that allows you to access information about this equipment over the Internet.

- Web-based remote device management tool for Toshiba MFPs.
- Graphical view of MFP configuration and settings.
- Manage network, print, copy, scan, and fax settings.
- Create and manage address book, templates, and user authentication.
- E-mail alerts for administrator and/or user intervention.
deskForm is the complete personalized communication solution for cross-channel messaging for small organizations. It allows you to easily communicate both in print and electronically.

- Generate print and electronic documents.
- Easily produce SMS text messages that are deliverable to cell phones.
- Output HTML Email and print campaigns.
- Create personalized web landing pages (PURLs) using HTML project elements.
- Save time and money using this fully integrated module for postal certification.
- Organize print and electronic messaging projects utilizing a fully integrated document management system.

deskSystem is a community-based workflow and collaboration desktop application with intuitive document composition and editing. It allows users to quickly build documents from a wide range of file formats, form collaborative workgroup communities for sharing, approvals, signatures, and other processing tasks, and create personalized automated workflows and business processes.

- Replace preprinted forms with less expensive plain-paper, laser-printed forms.
- Create your own personalized and sophisticated brochures, letters, and other communications.
- Replace outdated line printers, dot matrix printers, bursters, and collators.
- Eliminate outsourcing of your variable data and personalized printing jobs.
- Speed up and simplify document delivery through print, send-to-file, PDF, email, and fax.

DocForm merges variable and static data and content to create powerful personalized print and electronic documents. Toshiba Document Solutions combine Toshiba e-STUDIO systems with powerful software applications.

- Replace preprinted forms with less expensive plain-paper, laser-printed forms.
- Create your own personalized and sophisticated brochures, letters, and other communications.
- Replace outdated line printers, dot matrix printers, bursters, and collators.
- Eliminate outsourcing of your variable data and personalized printing jobs.
- Speed up and simplify document delivery through print, send-to-file, PDF, email, and fax.

DocSystem is an intuitive, low-cost, and easy-to-use software solution for quickly implementing advanced rules-based distributed print, departmental workflow, and image processing rules.

- Reduces document processing costs.
- Improves printing and workflow efficiencies.
- Eliminates manual processes.
- Replaces paper documents with efficient electronic documents.
- Offers greater value from, and utilization of, distributed MFPs and printers.
DocTransform is a powerful and easy-to-use solution that is designed to fix printing problems and adapt to a wide range of data and print streams.

- Appropriate for varied businesses of all sizes and industries.
- Scalable and configurable, from single print stream customization to enterprise-wide print operations.
- Seamless integration between a business’s variable data processing and electronic document management.
- Saves time, reduces costs, and improves efficiency for printing operations.
- Eliminates the need for expensive reprogramming of existing systems.

Pharos Systems

Pharos Blueprint Enterprise is an easy-to-implement, manageable, and highly customizable way for you to understand exactly what your organization is spending on print, and to then turn that knowledge into significant and measurable savings for your company.

- Discover and locate print devices.
- Create a baseline profile of the printing environment.
- Determine level of asset optimization.
- Identify underutilized devices.
- Determine total print and copy accounting costs, as well as cost-savings scenarios.
- Measure optimization result.
- Manage print environments.

Print Audit 6 is the most powerful print management and print tracking system in the world. It’s composed of three components called Analysis, Reduction, and Recovery.

- Easy, enterprise-wide installation to any number of machines.
- Tracks 100% of printing, including local, networked, and direct-IP.
- Network push-install tool.
- Bulletproof security that cannot be overridden.
- Support for SQL or Access back-end accounting programs.
**Document Output Management**

**Ringdale FollowMe** is a scalable all-in-one tool for roaming and secure printing, as well as copying, emailing, faxing, and scanning control. It allows users to share output devices anywhere on the network without the loss of privacy and security.

- All-in-one solution for streamlined printing environment.
- Print jobs are never lost.
- Tracks all usage for accountability and cost recovery.
- Policy and rules-based printing for maximized user control.
- Centralized job management.
- Seamless integration.
- High return on investment.

**Document Capture**

**e-BRIDGE Re-Rite** is the advanced scanning option available for Toshiba e-STUDIO MFPs that allows users to create practical Word, Excel, and searchable PDF documents at the touch of a button.

- Convert scanned documents to 17 editable file formats.
- Automatic optical character recognition (OCR) from the document feeder to the desktop, including Word, Excel, and searchable PDF formats.
- Distribute the converted files to shared network folder, e-mail address, or both automatically.

**eCopy™**

Transform color or black and white paper documents into information that is easily integrated with all of your business applications.

- Integrate paper documents with your existing enterprise applications.
- Send paper documents electronically and securely.
- Dynamic user interface.
Toshiba delivers a level of service and a guarantee that are unmatched in the industry. We demand unparalleled performance from our products. So, it follows that we offer the same in our guarantee. There are no disclaimers. Just a simple and sincere commitment to deliver the quality expected from one of the industry’s most highly acclaimed leaders in copiers, facsimiles, and printers.

Always exceed our customer’s expectations by providing leading-edge imaging and information workflow products and services, while meeting our commitments to our shareholders, employees, and community.
